COMMUNITY, FRIENDSHIP &  
UNDERSTANDING, FROM PEOPLE WHO  
GET WHAT YOU ARE GOING THROUGH.

WHY JOIN US?

- Kings Park Warriors, started by stroke 'warrior' and survivor, Gregg Oughton is a supportive community of people living with Acquired Brain Injury who meet weekly at different locations around the state. But he couldn't have done it without the support of his wife and family.
- The number of groups has grown from one to six in just 5 years and they are very well attended, with anywhere from 10 to 20 attendees a week!
- Gregg and his wife Julia started this carers group for partners, families and friends to continue to provide love and support to its rapidly growing and deserving community of carers of people living with ABI.
- **No referrals needed, just show up.**
